Composite Door Frame System

# Composite Door Frame

Neulite’s Composite Jamb offers built-in advantages unmatched in the industry.It’s maintenance free design means less work for you and a longer life for youentry unit. Composite frames are incredibly strong with superior screw holding power and a tough exterior finish. They eliminate the need for cladding and reduce the possibility of job site damages.

Composite components are very durable and with the elimination of water absorption there is no rotting, olding, swelling or warping—making them virtually maintenance free.
